## CLOSE REDISTRICTING CASE

### County Caucuses Indicate Hoover Trend

#### GOVERNOR'S RACE FAVORS ELMQUIST, CHASE, CHRISTIANSON

CONVENTIONS, HOWEVER, ASK THAT RESOLUTIONS BE LEFT TO PLATFORM COMMITTEE

St. Paul, March 17.—(UP)—Although Republican party headquarters recommended to county conventions throughout the state that resolutions be left to the platform committee of the state convention, the majority of counties passed resolutions endorsing President Hoover, party headquarters said today.

Ray P. Chase, former state auditor, Theodore Christianson, former governor, and Charles E. Elmquist, St. Paul, former railroad and warehouse commissioner, were endorsed by various counties for the gubernatorial race.

#### Endorse Income Tax

Ottetail county Republicans meeting at Fergus Falls endorsed a state income tax to be designated only as a replacement tax. Minneapolis Republicans favored Earle Brown, head of the state highway patrol, although he has taken his name from consideration by a refusal to make the race.

Most of the counties, however, will send uninstructed delegates to the state convention the last part of the month. St. Paul Republicans passed a resolution commending five Minnesota members of congress who voted wet on the Beck-Linthicum bill while Republicans of Pennington county declared themselves against a wet referendum.

Becker county Republicans passed a resolution saying that economic depression was over.

#### To Recommend Referendum

In Hennepin county the so-called regular Republican faction, headed by Arch Coleman, first assistant postmaster general, went down to defeat before a group headed by Ward F. Senn. The convention, however, voted to endorse President Hoover, although many had thought that refusal of Coleman might mean uninstructed delegates.

Winona and Crow Wing counties recommended a referendum while Clay county also was dry.

#### PICK COMMITTEES WORKING REVISION BRAINERD CHARTER

Facing a busy task that may require months, members of the Brainerd Charter Commission will delve into work to formulate a skeleton of the proposed revised city charter at its next meeting Tuesday evening, March 22.

Carl Zapffe, president of the Brainerd Water and Light board, is slated to appear before the commission at the meeting to take place in the city council chambers in the city hall. The finance committee of the city council appeared before the commission at its March 14 meeting.

Committees of the Charter Commission named by its president, A. G. Anderson, are:

Finance—R. R. Gould, chairman; S. E. Engstrom, L. T. Noggle, T. H. Schaefer, O. E. Swanson.

Public Improvements—A. C. Weber, chairman; John Mankowski, Mrs. Margaret Herbert.

Public Affairs—E. W. Paine, chairman; W. A. Erickson, C. T. Zetterwald.

Boards and Court Matters—R. W. Crust, chairman; John W. Spencer, Fremont Turcotte.

#### PRUSSIA NIPS FASCIST PLOT ENGINEER CIVIL WAR AND UNDERMINE GOVERNMENT

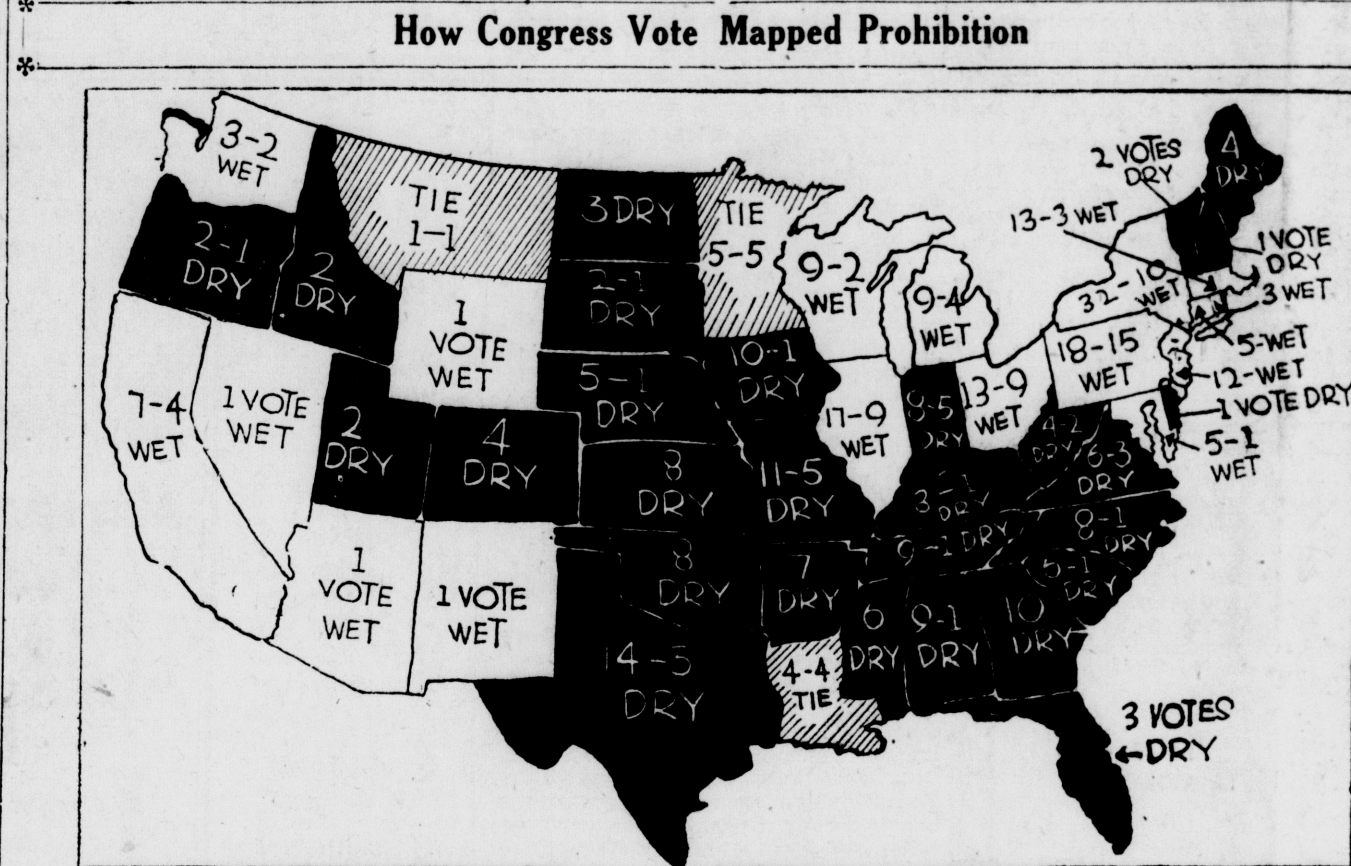

Berlin, March 17.—(UP)—Prussia police raided Fascist headquarters in branches today on information alleging that the Nazis planned to mobilize their storm battalions for civil war.

An "official Prussian government" statement said the raids were intended to frustrate Fascist preparations to grasp power by violence.

The raids were made through all Prussia by the efficient Prussian police force. The Nazis had hoped to control that police force by winning control of the Prussian diet in the April 24 elections.

Defeat of the Nazi leader, Adolf Hitler, by President Paul von Hindenburg in the presidential election, and rumors of an attempted Fascist coup published abroad, preceded the raids.

The Prussian government's communique concerning today's raids referred to the Brown Shirts' "preparations and armaments for civil war which may not be explained by the pretext of anticipating Communist dis-

When Congress voted on a proposal to bring the Beck-Linthicum prohibition amendment out of committee in the first wet-dry test of importance since 1917, Representatives lined up as shown in sketch map above. The Beck-Linthicum resolution, still locked in committee, would amend the 18th amendment to allow state control of liquor. Wets piled up a surprise vote of 187 to bring the proposal before Congress. They were defeated by 227 dry-voting congressmen. The 18th amendment originally was adopted in the house by a vote of 282 for and 128 against.

#### G. O. P. CONFERENCE SALES TAX CALLED AT BEHEST PETITIONERS

MOVE FOR GENERAL FEDERAL  
WAGE REDUCTION VIEWED AS  
SALES TAX STRATEGY

Washington, March 17.—(UP)—Republican Floor Leader Snell acceded today to the request of 39 petitioners for a Republican conference on the sales tax.

As soon as the petition was presented by the leader of the sales tax opposition on the Republican side, Rep. LaGuardia, New York, Snell issued a call for a conference tomorrow night. House leaders have decided to sponsor a general federal salary reduction bill, Chairman Byrns of the appropriations committee told the United Press. Byrns said the measure would be ready for submission to the house the middle of next week.

The extent of the reduction has not yet been fixed. Byrns favors a graduated scale which would be light on small salaries but reach 20 per cent on members of congress who receive \$10,000 a year. Others want a flat 10 per cent cut.

The maneuver was regarded as part of the drive of leaders to get the sales tax through the house. The fact that the decision was reached in the midst of the tax fight supported that impression.

Crow Wing county Republicans, through the vote of its 70 delegates at the county convention here Wednesday afternoon, formally went on record favoring the renomination of the candidacy of Herbert Hoover for president of the United States.

Coming as a minority report from the resolutions committee but nevertheless gaining a vote on the floor, a resolution was adopted favoring a referendum for the repeal of the 18th amendment.

Delegates to the state and district conventions were instructed to support the candidacy of President Hoover.

The session extended into late afternoon, balloting on delegates and county officers requiring the better part of three hours.

Togo Ericson, 26, Brainerd, was voted to the helm of the Crow Wing County Republican party for the next four years at a spirited vote.

Ericson gained his first post in the Republican party of the county by winning over Frank G. Hall, veteran Republican and member of the county committee the last eight years.

The official vote was: Ericson, 37; Hall, 28.

The chairman previously had carried the vote for temporary chairman, defeating R. J. Harte, Cuyuna. The voting for chairman came late in the afternoon after delegates had been elected to three G. O. P. meetings out of the city.

Carney Peterson was voted in as secretary over his Brainerd opponent, Mrs. W. C. Mannis. He was elected by 32 to 24 votes. Mrs. J. A. Thabes, Sr., declined nomination of candidacy. She had served as secretary of the county organization the last 12 years.

Elmer O. Olson was unanimously chosen as treasurer. He was without opposition.

Delegates and alternates named to conventions were:

Those elected to the state Republican convention at St. Paul April 30: Delegates—E. O. Olson, Hilding Swanson, Dr. R. A. Beise, Togo Ericson, Mrs. E. T. Andberg, Brainerd; R. G. Harte, Cuyuna; G. H. Crosby, Jr., E. W. Van Evera, Crosby; Lester Wahl, Ironton; Julius Nelson, Pequot.

#### DEPOSITORS RELIEF MEASURE TO SENATE

Washington, March 17.—(UP)—A \$700,000,000 relief proposal for depositors of failed banks reached the senate floor today as part of the long deferred Glass general banking bill.

The Glass bill would create a federal liquidating corporation as a permanent organization for quick disposition of assets of failed banks which are members of the federal reserve system.

For emergency purposes during the next two years the corporation would be empowered to purchase and liquidate assets of closed non-member banks. The corporation would be authorized to draw on the treasury for \$200,000,000 to provide such relief. The permanent relief fund would be obtained through subscription by reserve member banks.

be elected at the district convention to attend the national convention.

The state conference Saturday will be a gathering of Republican leaders in the state to choose its candidates for the state ticket.

The convention also adopted resolutions protesting against the dumping in the United States of Soviet Russia of manganese iron ore, lumber and pulpwood, urging legislation to effectively prevent it; also favoring the enactment of a tariff on iron ore to the protection of the iron ore industry in Minnesota.

Copies of the resolution were ordered forwarded to Congressman Harold Knutson and a resolution was also adopted commending the work of the congressman in his representation of this district.

#### HEAVY G. O. P. VOTE EXPECTED IN DEMO PRIMARY BAY STATE

MAYOR CURLEY, BOSTON, PREDICTS CLEAN SWEEP FOR FRANKLIN ROOSEVELT

Boston, Mass., March 17.—(UP)—Republicans in this state will flock to the polls by the thousands April 26 to vote in the Democratic presidential primary for Franklin D. Roosevelt, just as Republicans did in the North Dakota record-breaking primary Tuesday, Mayor James M. Curley predicted here.

In North Dakota the total Democratic vote Tuesday was about five times as large as the total normal state Democratic vote. And in that primary Roosevelt won over Governor William H. Murray of Oklahoma, three to two.

The result, which gave Roosevelt a total of 64 pledged convention votes, and victories in every state contest so far entered, was cited in a radio address last night by Curley as proof that "the public regards Franklin Roosevelt as the most progressive liberal that has sought election as president in many years."

Roosevelt forces now claim these convention votes.

Alaska 6, New Hampshire 8, Minnesota 24, Washington 16, North Dakota 10.

The Georgia primary March 23 is the next on the schedule—and Roosevelt appears destined to win that state's 26 votes with scarcely a struggle. Roosevelt forces hope to capture 10 or more of Massachusetts' 36 votes which had been all but conceded to Smith before they decided to fight.

Roosevelt, it was learned, has followed up his North Dakota victory by filing necessary papers for the South Dakota primary May 3.

At Washington, observers were surprised, and Roosevelt partisans were jubilant over results in North Dakota.

#### State Retains Second Place Drive to Gain Jobs

New York, March 17.—(UP)—The state of Minnesota retained second place in the drive to obtain jobs for the unemployed by the united action group consisting of the American Legion, the American Federation of Labor, and the Association of National Advertisers. New York led with 24,386 men reemployed. Minnesota's total was 23,360.

#### Egg Prices Landslide; Low as 8c Dozen Here

Farmers in the district peddled eggs in Brainerd today direct to the consumer for as low as 8 cents a dozen.

Old timers said that not since they were youths had the price been so low.

Prices slid in Minneapolis today to the low record of 5 cents a dozen for eggs.

Farmers here said they were not discouraged because feed prices and food costs had likewise dropped in comparison.

### ROOSEVELT LEADS MURRAY BY 15,877 IN N. D. PRIMARY

TABULATION RETURNS TWO-THIRDS OF PRECINCTS SHOWS COMMANDING LEAD

Bismarck, N. D., March 17.—(UP)—Governor Franklin D. Roosevelt of New York had a majority of 15,877 votes over Governor William H. (Alfalfa Bill) Murray of Oklahoma today in returns from two-thirds of the 2,193 precincts in North Dakota's presidential preference primary.

With only 764 precincts missing and approximately a fourth of the aggregate vote still to be counted, Murray faced the impossibility of winning the Democratic preference.

The United Press tabulation showed: Roosevelt, 37,302.

Murray, 21,425.

Majority, 15,877.

Murray supporters, however, held hopes that they would be able to send George Murray, Berthold farmer, to the national Democratic convention in Chicago. Murray, who was leading the delegate vote for his brother by a wide margin, was close to the last Roosevelt delegate. If Murray can pull ahead, the North Dakota delegation will be split with nine for Roosevelt and one for Murray as the delegates are not bound by the preference vote.

The total vote cast in the primary will set a record for a North Dakota presidential preference. Politicians predicted that Roosevelt's final majority might approach the 20,000 mark but others doubted that it would be so high.

The missing precincts were from sparsely populated sections and will not have as many votes per precinct as the earlier ones.

In the Republican balloting, former Senator Joseph Irwin France of Maryland lead "General" Jacob S. Coxey, mayor of Massillon, Ohio, by a two to one margin. However, the slate of delegates pledged to President Hoover in the Republican national convention held a commanding lead over his non-partisan rivals who were to support a "progressive" Republican.

### IRELAND OBSERVES ST. PATRICK'S DAY IN ENTHUSIASTIC OBSERVANCE COUNTY DOWN

Dublin, March 17.—(UP)—The most enthusiastic St. Patrick's day celebration in years was held in Ireland today on the occasion of the 15th centenary of the saint's landing.

The village of Saul, County Down, where St. Patrick came ashore, was the scene of a time-honored ceremony on the site of a proposed memorial to the saint.

Washington, March 17.—(UP)—The supreme court took Minnesota's redistricting case under advisement today as attorneys for the state concluded their argument in the involved legal dispute.

The court took an unusually keen interest in the situation presented and subjected the lawyers to intensive questioning.

Attorney General Henry N. Benson centered his argument on the contention that the Minnesota supreme court had ruled that the Minnesota legislature did not include the governor in matters affecting redistricting.

This ruling, he contended, was final and should not be disturbed by the supreme court. The governor's signature, he argued, was essential only to matters concerning state affairs and did not apply to federal matters.

Benson was questioned closely on the situation in Minnesota. He said there had never been a law in the state dealing with a reduction in its representation and that no machinery exists for electing congressmen at large.

The matter might be handled at a special session of the legislature but a session could only be called by the governor and none has been indicated, he added.

Assistant Attorney General William H. Gurnee argued that the history of congressional law on redistricting showed the 1911 act prescribing compact districts no longer applies.

He was asked by Justice Stone if the state legislature acted without the governor's approval in any situation in Minnesota other than the present instance.

Attacks State Decision

He answered that there was no precisely similar situation in which the legislature could avoid the governor's signature to a law but, he added, the veto power of the governor was almost unknown among the original states. New York had none until 1821, he said.

George T. Stimson, Minneapolis lawyer, attacked the state court ruling which held that the state legislature had a right to redistrict the state without Governor Olson's approving signature.

Olson, he said, refused to sign the measure because the districts created were not of compact territories evenly divided on the basis of populations. He cited rulings of lower courts in Missouri, Illinois and New York, where the decision was just opposite to that made in Minnesota.

The federal constitution, he said, required that the entire law-making power be used to redistrict, while the 1911 law required that districts be evenly divided.

Loses Member in House

Minnesota loses one member in the next house of representatives. Should the law be held invalid, the coming election may find all members in the state running at large which, it is said, would give the cities a great advantage in influencing representation.

Justice Benjamin N. Cardozo, who as chief judge of the New York court of appeals ruled contrary to the Minnesota decision, withdrew from the court when the case was argued. He will not participate in the decision.

#### Anoka County Endorses Chase for Governor

Anoka, Minn., March 17.—(UP)—An Anoka county Republican party convention today forwarded resolutions to the state headquarters endorsing Ray P. ## DWIGHT CURO PLAYS TITLE ROLE SENIOR CLASS VEHICLE WELL

With Dwight Curo and Mildred Skiba as hero and heroine, the Senior class play, "Captain Applejack," by Walter Hackett, was successfully staged in the high school auditorium last night.

There was an attendance of between 700 and 800.

Dwight Curo was exceptional as Captain Applejack, carrying almost the entire second act alone. Barbara Zapffe as a villainess and Harold Strickler as a villain acted the parts perfectly. William Stout took the part of a butler and Lyle Anderson that of a Chinaman. Mildred Skiba made an ideal heroine.

The supposed loss of twenty dollars of ticket money caused much excitement after the play. It was thought that the money had been stolen from the gym where it had been hidden. Later it was found to have been mislaid.

## TALK ORGANIZATION COUNTY FEDERATION WOMEN'S CLUBS HERE

Of unusual interest to Brainerd Musical club members and its friends is the home talent program which it sponsors every year.

On Saturday afternoon of this week an interesting program will be presented by Brainerd talent, a diversified entertainment with dramatic reading, music and interpretative dancing.

Preceding the program at the high school the courtesy committee has arranged for another of the delightful luncheons which have been so well attended and much enjoyed. It will be served at the Presbyterian church at 1 o'clock and the members of the Federated clubs of the county are invited to attend to discuss the organization of a County Federation of Women's Clubs. For a long time the state and district presidents have urged such organization.

Reservations for the luncheon may be made by phoning Mrs. E. J. Quinn at 313 or Mrs. T. E. Jones at 436 before Friday noon. All who attend this luncheon are invited to be guests of the club at their program at the high school auditorium at 3 o'clock. The mothers of all the children participating in the program are also invited to be guests at the entertainment.

### SKELGAS OFFERS \$25,000

#### PRIZES IN ESSAY CONTEST

Prizes totaling \$12,500 in value will be given away in a contest announced this week by the makers of Skelgas and Skelgas dealers throughout the middlewest, according to J. C. Clausen, Skelgas dealer for this locality.

All there is to do, is write a letter—not more than 300 words—on "What Skelgas Would Mean to Me."

The first prize winner will receive all of the following: Beautiful Skelgas Stove K-11, the finest Skelgas stove made, completely equipped with kitchen cutlery and spice canisters, a large Skelgas water heater, complete Skelgas installation and 25 cylinders of Skelgas (enough to last the average family five years). Sixty-four other complete Skelgas installations and stoves will be awarded; as well as 235 other valuable prizes.

All anyone has to do is write a letter on "What Skelgas Would Mean to Me," using not more than 300 words. We would like to see everyone enter this contest, women, men, children, everyone.

"We want to make it clear that entrants should write their thoughts simply, just as they might talk about Skelgas." Writing ability will not be counted. It's just what the contestant says that counts. We would like to see as many as possible of these prizes won right here in Brainerd and vicinity. So tell everybody to get busy, write a letter, and send it to Skelgas Company, 2534 Madison Avenue, Kansas City, Mo. Letters must be postmarked not later than midnight, Saturday, April 16.

Editor's Note: Look elsewhere in this issue of The Daily Dispatch and read an advertisement about this \$12,500 contest, sponsored by Skelgas Company and J. C. Clausen, Skelgas dealer.

### WHITE CAKE

This batter may be used for loaf cakes, layer cakes or cup cakes. It may be divided to make a small loaf cake and some cup cakes, or a small loaf cake or layer cake.

1 cup sugar 1/2 teaspoon baking powder  
1/2 cup butter 1/2 teaspoon flavoring  
1/2 cup water 1/2 whites of 2 eggs  
1/2 cup flour 1/2 teaspoon salt

Put all ingredients in mixing bowl. Beat vigorously until smooth and light. Bake in oven at 350 degrees, about one hour for loaf cake.

### POTATO SALAD

2 cups thin sliced boiled potatoes 2 cups French dressing  
1 cup chopped celery or cabbage 1 tablespoon lemon juice  
1 cup mayonnaise 2 hard boiled eggs

Onion, if desired, proportion according to taste. Marinate potatoes with French dressing, add celery and onion, mix with mayonnaise. Place in mold and chill. Turn out on crisp bed of lettuce. Garnish with olives, eggs and pickles and crisp bacon.

### CORN MUFFINS

1 cup corn meal 1 egg  
1/2 cup flour 1/2 cup milk  
2 tablespoons shortening 1/2 teaspoon baking powder

Scald corn meal, add shortening to hot meal. Cool, add egg, sift flour, baking powder, and salt over meal. Stir in milk and turn into muffin mixture, beat to smooth batter. Bake for 20 minutes in 450 degree oven. This makes eight muffins.

### SANDWICH LOAF

Remove crust from a loaf of sandwich bread. Cut lengthwise in four slices. Spread a slice with mayonnaise and thinly sliced tomatoes. Cover with another slice of bread, spread with mayonnaise. Spread this with a generous layer of crisp bacon and chopped pickle and cover with the third slice of bread. Spread this with mayonnaise and lettuce. Spread the fourth slice with mayonnaise and seasoned cottage cheese and from the entire loaf with cream cheese. Place in refrigerator about an hour before serving.

### BREAKFAST COFFEE

To each cup freshly boiled water use 1 heaping tablespoon coffee, a few grains salt. If percolated coffee is made, do not allow to boil more than 6 minutes. In using one tablespoon coffee to cup of water, is strong coffee is desired, it is necessary to use more coffee. Remove grounds instantly from pot as soon as it is made.

**TEA, RELIEVES MENTAL AND PHYSICAL FATIGUE**

Use a teaspoon of tea for each cup and an extra spoonful for the pot. Have the water "just boiling hot." Scald the pot. Pour the water on the tea and allow to draw for at least five minutes. Strain off into another teapot ready to serve.

### MOCHA ICING

2 1/2 cups sugar 1/2 cup white syrup  
1/2 cup strong coffee 1/2 egg whites

Blend coffee, syrup and sugar in sauce-pan. Boil five minutes until mixture makes soft ball (235 degrees). Beat eggs stiff, adding half syrup mixture. Return mixture to heat and boil to hard ball stage (242 degrees). Pour into egg whites and beat until cold. Flavor with vanilla.

### MEAT TIMBALES

1 cup soft crumbs 1 cup minced chicken, veal or ham  
4 tablespoons butter 2 egg whites  
Salt and pepper

Cook crumbs and milk to smooth paste over low heat. Add butter, meat, and seasoning to taste. Fold in beaten egg whites. Fill individual greased molds 2-3 full. Set pan of hot water and bake in moderate oven, 375 F., about 20 minutes, or until firm. Turn out on serving dish and surround with egg, mushrooms, or cheese sauce.

## BUSINESS VOLUME FEBRUARY FEDERAL DISTRICT DECLINES

Minneapolis, Min.—The volume of business in the ninth federal reserve district declined in February from January, and was lower than a year ago, a summary of the Federal Reserve bank here said today.

Unfavorable weather conditions prevailed during most of February, the summary said, which reduced the volume of business in such lines as building operations.

The daily average of bank debits was 27 per cent lower in February this year than in the same month last year, the report said, and the country check clearings index for February was 29 per cent lower than in the corresponding month last year.

Freight carloadings for the first cent, smaller than the same weeks last year. Other decreases occurred in electric power consumption, building permits and contracts, flour shipments, grain marketing, receipts of cattle and calves and department store sales, the summary said.

The report said that the only increases in volume over February last year were reported for receipts of hogs

and sheep carloadings of coal.

Estimates of farmers' cash income from seven important items were 57 per cent smaller in February this year than in February a year ago. The decrease was principally caused by reduced marketings of grain and lower prices for hogs, the summary said.

In February, the prices of bread wheat, durum wheat, barley and rye were higher than a year ago, but prices of all other important farm commodities were lower than last year's prices.

### BUTTING IN

Denver, Colo.—When little Alice Mary Hornaday, 2, wants to be alone, she doesn't want anyone to interfere with her privacy—not even a fireman. She recently locked herself up in a room and refused to come out for hours. Her parents sent for the department. Fireman Williams raised a ladder to the window of the room, climbed in, and unlocked the door. "What," said little Alice, indignantly, "are you doing here?"

### BRAZILIAN WAR PLANES

Rio de Janeiro—The Brazilian war ministry has placed an order for fifteen training planes with an English manufacturer. The new craft will be the first British planes to be placed by contract in the Brazilian army air service. They carry radio, night and blind flying instruments, bombs, electric camera and rocket signalling apparatus.

## HIS HEALTH

## IMPROVED 40%

After Use of Kellogg's ALL-BRAN

If you are constipated, read this letter which Mr. Murray had addressed by Notary Public:

"Two months ago I commenced using Kellogg's ALL-BRAN to relieve constipation. I am in better health today than I have been in years, due to the use of your wonderful bran. My bowels move regularly, and my general health has improved 40%." George A. Murray, 288 K Street, South Boston, Mass.

Laboratory tests show ALL-BRAN brings two things needed to correct common constipation: "Bulk" to exercise the intestines; Vitamin B to help tone the intestinal tract. ALL-BRAN also furnishes iron for the blood.

The "bulk" in ALL-BRAN is similar to that of lettuce. Inside the body, it forms a soft mass. Gently it clears the intestines of wastes.

How much better to use ALL-BRAN than to abuse your system with pills and drugs—often harmful.

Two tablespoons daily will overcome most types of constipation—in serious cases, with every meal. If your intestinal trouble is not relieved this way, see your doctor.

Use as a cereal with milk or cream, or in cooking. At all grocers in the red-and-green package. Made by Kellogg in Battle Creek.

### Ruth Happy Over New Contract Sees Big Year

St. Petersburg, Fla., March 17.—(UP)—Babe Ruth, who "because of the depression" has agreed to accept a one-year salary of \$75,000, equal to that of the president of the United States, expects to have a good season, he said today.

He explained that yesterday's performance against the Boston in which he failed to hit in six trips to the plate had "had no special significance." He played with the Yankees against the Braves again today.

Two or three games may be required before he gets into his stride, he pointed out, "and then boys watch my smoke. I'm in swell shape. My batting eye is good, and I've still got the old wallop. There's no reason why I shouldn't have a good year."

### FIVE COLLEGES, 11 HIGH SCHOOLS LOSE STANDING IN N. C. A.

Chicago, March 17.—(UP)—Five colleges and 11 high schools were off the North Central association's accredited list today for reasons ranging from "undesirable athletic conditions" to bad financial and "faculty standards."

The association acted again on proselyting when it adopted a regulation providing prospective students be not personally solicited by athletic coaches. The rule, already approved by the Western and other athletic conferences, is regarded as "futile" by several members of the North Central, including President Irving Maurer of Beloit college, Wis.

Two colleges, Eastern State Normal, Madison, S. D., and St. Mary's college, St. Mary's, Kan., resigned.

### FACED OPPOSITION ALONE; ROLLS COUNT 256, 213, 206 PINS

Lester Boyd, only player to report for the Mills Motor in its games with the Wm. Hoopers last night, took occasion to signalize his event by crashing the pins for a new season record.

Boyd mowed down 675 pins in the three games. His score read: 256, 213, 306.

Lacking any support, Boyd and four "blinds" lost to the Hoopers three games.

Dr. W. A. Erickson lead the Lions in competition against the league leaders with a 235 pin single and 567 pin total score but the Town Pump won two games.

In the ladies' league tonight at Van's alleys Bell Telephone will play the Brainerd Laundry and the Northern States will oppose Russell Creamery.

### Lefthanders to Battle in Light-Heavyweight Go

Chicago, March 17.—(UP)—For the first time in the modern history of the prize ring two left-handers will battle for a world's championship when Dave Maier, Milwaukee, meets George Nichols, Buffalo, in a 10-round bout at the Chicago stadium Friday night with the National Boxing Association's light-heavyweight title at stake.

Only four southpaws have held titles although the ring has boasted of many great fighters who battled with their right foot forward. The four southpaw champions were Lou Brouillard, who held the welterweight title until he recently lost it to Jackie Fields; Johnny Wilson, Al McCoy and Tiger Flowers, all three middleweights.

Maier, who has won 7 of his last 12 bouts by knockouts, continued to rule a 7-5 favorite in the betting today. Maier holds a technical knockout over Nichols but the blonde Milwaukee batter was on the losing end until the bout was halted in the eighth round because of a rash over Nichols' eye.

Miami, Fla., March 17.—(UP)—A brilliant field including many of the world's noted professional golfers entered competition today in the Miami Springs \$10,000 open—the richest tournament in the south this season.

The meet will continue through Saturday with the Miami Biltmore links, with 72 holes medal play.

Professionals entered include Billy Burke, national open champion; Tommy Armour, British open champion; Walter Hagen, Canadian champion; Gene Sarazen, Johnny Farrell, Cyril Walker and Willie McFarlane, all former national open title holders; Paul Runyan, P. G. A. champion and others.

### At the Training Camps

(By United Press)

St. Petersburg, Fla., March 17.—With Babe Ruth in the lineup again, the New York Yankees staged another exhibition contest with the Boston Braves, 8 to 5, in a game yesterday, when Ruth, playing his first game of the season, failed to hit in six trips to the plate.

Clearwater, Fla., March 17.—The Brooklyn Dodgers and the Philadelphia Athletics will play here today. Yesterday the Dodgers dropped an 8 to 7 decision to the Newark Bears at Lakeland.

New Orleans, March 17.—(UP)—The Cleveland Indians meet the New Orleans Pelicans tomorrow in another exhibition after winning 7 to 7 getting 11 hits. Eddie Montague hit the first home run of the season.

Los Angeles, March 17.—The New York Giants were enroute to Aquia Caliente, Me., today for a few hours at the race track before opening a two-game series at San Diego tomorrow against Hollywood of the Coast league. Meanwhile the Chicago Cubs, beaten 5 to 3 by the Giants Wednesday, were rolling to San Francisco for their series with the Pirates. The Giants won four and the Cubs two contests of the series.

### RANGERS SCRAP FOR FIRST WIN IN STATE CAGE PREP TITLE RACE, PLAYING WINONA

The Crosby-Ironton Rangers were battling late this afternoon at the Minnesota Field House, Minneapolis, to survive the opening round in the team's first fight in the big time.

The Rangers lined up against the fast Winona team at 4 p. m. and on entering the battle immediately were sized up by critics and a large following of fans as favorites to win.

San Francisco, March 17.—(UP)—The Mission Reds turned on the Pittsburgh Pirates yesterday, 2 to 1. It was a 10 inning pitchers battle.

Galveston, Miss., March 17.—The Washington Nationals took their second straight game from the Baltimore Orioles here yesterday, winning 6 to 3. Monte Weaver, purchased by Washington from Baltimore last fall, held his former team mates hitless and scoreless during his three innings.

tionately heavy and accurate in shooting was another favorite. Crosby-Ironton was playing Winona in the second game. Winona while it has five first team players who have coasted through all opposition in southeastern Minnesota is weak in reserves.

Chisholm will play Princeton with the former favored to win. Chisholm an annual contender carries the hopes of the range where it went through with an impressive record.

Northfield will meet Mankato with Northfield the favorite. The Northfield team is well coached and is balanced.

### HERE IS AN EASY WAY TO BRING BACK PROSPERITY; YOU CAN DO YOUR PART

The person who purchases a new or used automobile today should be congratulated by every one in his community as this purchaser in buying an automobile, has given employment to a number of people locally who in turn spend what money they earn in their own community. The slogan which brings this out most forcibly is "Better a Dollar for Labor and Material than a Dollar for Dole." The biggest single factor in American prosperity is the automotive industry. Here is how the American pay roll depends on it.

Each year this one great industry consumes:

- 15.5% of all steel produced, 53% of all malleable iron, 18% of all hard-wood lumber, 68.7% of all plate glass, 17.4% of all aluminum, 14.8% of all copper, 9.3% of all cotton, 82.6% of all rubber, 26% of all lead, 30% of all nickel, 51.4% of all upholstery leather, 85% of all gasoline.

And in 1930 the automobile industry paid the railroads \$500,000,000 for transporting over 3,330,000 carsloads of freight—not to mention a billion dollars a year in taxes.

It is literally true that men work in steel and iron, in aluminum, lead and copper—men who bring ores from the earth—men in lumber camps and lumber mills, men who roll out plate glass for car windows and tan hides for upholstery—men who work on railroads—can buy more food, clothing, shelter and the pleasures of life when people are buying automotive products.

There are on display right now and new wares arriving every day of America's greatest industry. Every person who hopes to see business stage a sound and early recovery should consider what this brilliant array of new cars can do to make that recovery come true.

The automobile was responsible above any other single product for the prosperity of the last decade. Now, do you realize what it means to the future?

Just to maintain the annual regis-

tration at its present level, the motor car factories of this country will have to build another 23 million cars in the next seven years.

Merely to replace the automobiles which wear out in the next five years, the industry will have to duplicate the mighty production records of 1925, 1926, 1927, 1928 and 1929—starting now.

The recovery of every business today is waiting for the recovery of every other business—a start must be made somewhere—is there a better place to start than in the greatest industry of all?

Because the annual value of automotive products is greater than the value of any other industry's products.

Because the automobile provides employment for one out of every ten wage earners in the United States.

Because 20 per cent of all annual retail sales in this country are for automotive products.

Because the lion's share of the business in a long list of other industries depends directly on the sales of automobiles.

An increase in the demand for automobiles means an increase in business activity—there is nothing else you can buy which directly supplies work to so many people.

The nation's motor car manufacturers have registered their confidence in the future by investing millions in new inventions, new developments and new designs—they are now displaying the greatest values which ever bid for a motorist's dollar.

Brainerd is very fortunate in having the leading makes of automobiles represented by ten local dealers. These ten local dealers are offering to Brainerd purchasers the greatest values for their dollars ever offered by the automobile industry.

The State of Minnesota receives over \$7,500,000.00 annually in iron ore taxes. The automobile industry pays \$2,350,000.00 of this each year.

The employees of the automobile factories buy butter, eggs, pork, meat and poultry products in large quantities, which come from the Crow Wing county farms.

## JONES CLARIFIES REASONS FARMERS' TAX BURDENS HERE

Attended by the majority members of the Crow Wing County Farm Bureau, the meeting given at the farmers' room of the court house this afternoon featured an instructive address on "Our Taxes" by J. S. Jones, secretary of the Minnesota Farm Bureau Federation.

Jones' though in his discussion was summed up in the following concise statement:

"Tax reduction merely for the sake of reduction will be of little value to farmers. The general property tax as the primary means of raising revenue is no longer suited in this state.

"The United States is the only great nation in the world that has not long since abolished the general property tax. The farmer pays more than 30 per cent. of his income in taxes, yet the farmers representing 25 per cent. of the population of the United States receive only 10 per cent. of the income. We have advanced so rapidly in expenditures for new government services that it is now time to call a halt. In this time of stress we could well afford to limit the expenditures for highways to funds received from gas tax; income and other special taxes reaching groups not now taxed should be developed and utilized and used as a means of paying the bill for education.

When this is done the tax burden on property for other governmental purposes can be considerably reduced."

## Elks Official to Visit Here Tonight

District Deputy Siverts, Hibbing, will make an official visit to the Brainerd Elks' lodge tonight. Mr. Siverts is also on the program for an address. Past Exalted Rulers of the local lodge will officiate at an initiation to be held in conjunction. Luncheon for visiting officials will precede the meeting.

## BURIAL SERVICES MISS SUSAN CLARY EVERGREEN FRIDAY

Episcopal church funeral services having been held in St. Paul yesterday, interment for the body of Miss Susan Clary will take place at Evergreen cemetery, Brainerd, tomorrow afternoon at 2:30 o'clock, Rev. C. M. Brandon of St. Paul's Episcopal church officiating.

Miss Clary died at her home in St. Paul Monday, at the age of 80 years. She was the sister of Mrs. Northrup Binkley, formerly of this city and now of Portland, Horace Mann of Brainerd was a brother to the deceased.

She will be remembered by Brainerd people, having visited here occasionally with her sister, who was Mrs. Northrup at that time. She had been a nurse in St. Luke's hospital a number of years, but had been an invalid the last 14 years of her life.

The body will be accompanied to Brainerd tomorrow by a cousin, Mrs. Laura C. Stevens, of St. Paul.

## No More Piles

You Can End Your Awful Misery Quick Without Cutting or Salves

Thousands of Pile sufferers do not know that the cause of Piles is internal—bad circulation of blood in the lower bowel.

That is the scientific truth about Piles—the real reason why salves and suppositories do not give permanent relief, why cutting does not remove the cause.

Your itching, bleeding or protruding Piles will only go when you actually remove the cause—and not one minute before. External treatments can't do this—an internal medicine should be used. HEM-ROID, the prescription of Dr. J. S. Leonhardt, sold by good druggists everywhere, succeeds because it stimulates the circulation, drives out congested blood, heals and restores the almost dead parts.

Dr. Leonhardt's HEM-ROID has an almost unbelievable record of success right in this city. So why waste time on external remedies or worry about an operation when H. P. Dunn and Johnson's Pharmacy invite every Pile sufferer to try HEM-ROID with guarantee of money-back if it does not end their Piles, no matter how stubborn the case?—Adv.

## This Woman Lost 64 Pounds of Fat

Mrs. H. Price of Woodside, L. I., writes: "A year ago I weighed 190 lbs. I started to take Kruschen and now I weigh 126 and never felt better in my life and what's more, I look more like 20 yrs. old than the mother of 2 children, one 19 and the other 18. Every one of my friends say it's marvelous the way I reduced."

To lose fat SAFELY and HARMLESSLY, take a half teaspoonful of Kruschen in a glass of hot water in the morning before breakfast—don't miss a morning—a bottle that lasts 4 weeks costs but a trifle—but don't take chances—be sure it's Kruschen—your health comes first—get it at Johnson's Pharmacy, Economy Drug Co. or any drugstore in America. If not joyfully satisfied after the first bottle—money back.—Adv.

## ALDERMAN-MAGHAN CO.

RANGER URGES EARLY  
BURNING OF HAZARDS

Do all your necessary burning as early as possible this spring, and before the snow is out of the woods, urged E. H. Rhodes, local forest ranger, today.

If every person who has old brush piles, slash from timber cutting or partially uncut meadows to burn, would do this burning on the first clear day while ground is damp or there is still plenty of snow in the woods so as to keep fires from spreading, instead of waiting until late spring when fire conditions become hazardous, thousands of dollars worth of young timber growth would be saved as well as scores of game birds and animals.

## Prevent Fires

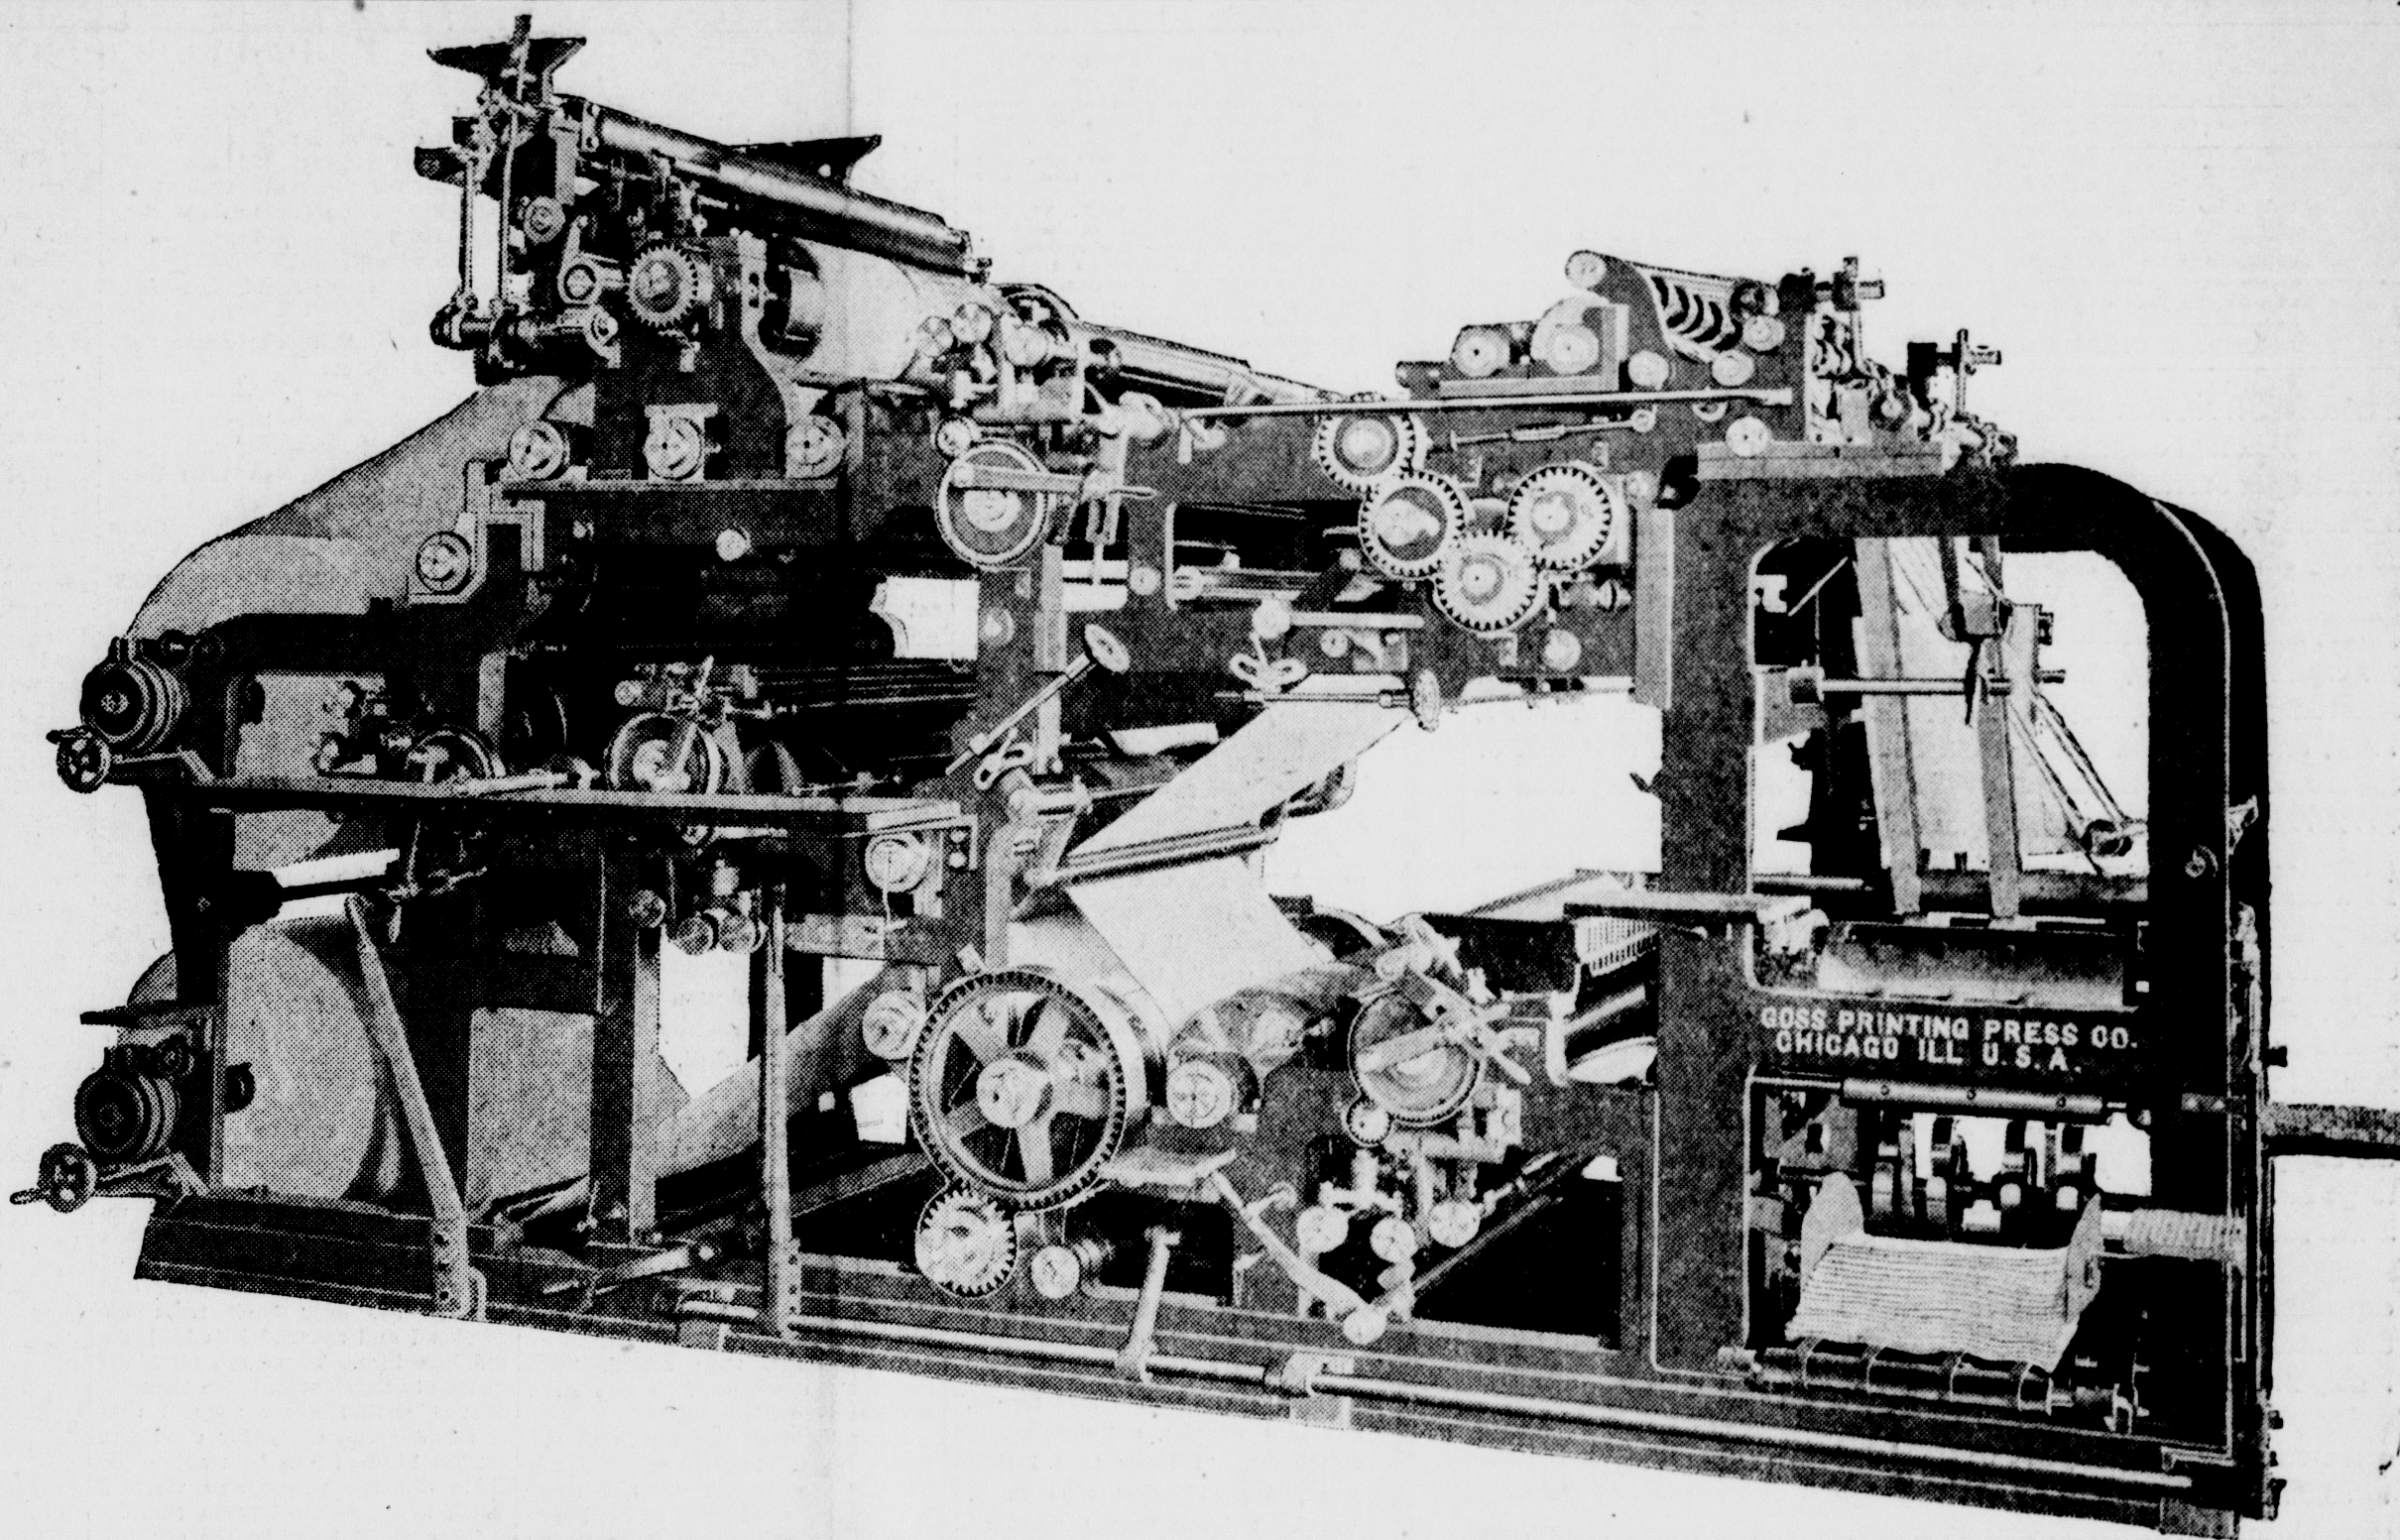

The bi-centennial of the birth of George Washington is being celebrated this year throughout the entire nation by the planting of trees in parks, on school grounds and for roadside beautification. This planting is a wonderful patriotic work, but why not also use exceptional care this year in seeing that no fires are allowed to start and destroy thousands of trees that are already growing in our forests. This, too, is a patriotic service, Rhodes said.

Men and women from all walks of life can do their part in this work—professional men, traveling men or tourists. Don't toss away your cigarettes as you drive along our highways without first putting them entirely out; fishermen and picnickers, don't leave your camp fire unextinguished; teachers, caution your pupils against the carrying of matches, about the destruction by fires and to love nature, and last, but probably more important than all, farmers and loggers should exercise every precaution in doing any necessary burning, see that it is done as early as possible in the spring, have plenty of help on hand and do not leave until fire is entirely out, Rhodes advised.

## Permits Required

Burning permits are required any time the ground is not snow-covered and these permits for burning may be obtained of your local Township Fire Warden, Patrolman or Ranger, the forest ranger said.

Closeup of Goss 16-Page Stereotype Rotary Press to be Installed by The Daily Dispatch

On a siding in the Northern Pacific railroad yards in Brainerd are two freight cars laden with stereotype equipment and the 16-page Goss newspaper rotary press, the picture of which is reproduced herewith.

Installation of the press will be begun in The Daily Dispatch plant this week. The machine is probably the only one of its kind to go into use in Central Minnesota cities of this size. It is a high-speed press capable of printing 20,000 eight page papers an hour or 10,000 sixteen page papers an hour.

The machine weighs approximately 15 tons and will rest on a foundation formed with about 500 feet of concrete. Ten men under the direction of Contractor Samuelson, of Brainerd, worked for the last two weeks completing the foundation work preparatory to the arrival of the erector who will begin installation of the press this week. It is expected to be in operation late this month.

The 16-page press will replace the eight page model now in use.

## WHERE OUR MONEY GOES—

We often consider the debt ridden condition of foreign countries and pat ourselves on the back because the United States is not in the same boat. But if the trend of recent years continues, it won't be long until we are.

In 1900, the per capita cost of the Federal government was \$7.29, and it increased ten per cent in the next 16 years. In 1931, the per capita cost was \$34.37—an increase of 500 per cent in 15 years. According to a Treasury estimate, the combined deficits of 1931, 1932, and 1933 will increase the Federal debt by the neat sum of \$3,250,000,000, bringing the total debt to the staggering total of \$19,240,000.

It is a favorite political practice to blame all this on the war. To a certain extent, that is fair enough. But it is likewise true that many departments of the Federal government have proven inept, inefficient and wasteful. The Farm Board has spent the greater part of \$500,000,000 in an effort to maintain prices on certain commodities—and has made a monumental and predestined failure of it. Two hundred millions more is being poured into Boulder Dam. The post-office is one long deficit. The government operates ships at a loss—the Shipping Board appropriation in 1930 was \$11,494,000. And, to go back a few years, the government sunk \$1,600,000,000 while it was running the railroads.

The condition of the states is even gloomier—while federal expenditures were increasing 730 per cent between 1903 and 1928, the states were more reckless yet, with a 900 per cent increase. Every family in the country is saddled with a government debt of \$1,000!

The thoughtful citizen will wonder if we are not approaching a tax crisis—a point beyond which we cannot pay. And he is liable to come to the conclusion that the progress of the country demands government retrenchment and economy, not in a vague future, but right now.

## THE JOB RIOTS—

News of the clash between police and unemployed men at the gates of the Ford plant on the edge of Detroit is tragically disturbing—not because it indicates any new danger from violent Communism, but because it proves that we have not yet learned how to deal with desperate men who cannot get jobs.

There were Communist agitators in the mob at Dearborn, of course. It goes without saying that the fighting, if not definitely caused by them, was at least right in line with their ideas.

But it is simply idiotic to suppose that a majority of the 3000 men who marched to the plant, or even a sizeable percentage of them, went out with any idea of provoking violence, or took with them any positive desire to see the existing framework of American society torn down.

They may have some of those ideas now, but it is very doubtful that they had them before the fight. They were simply distracted men for whom America today has no work. They wanted, somehow, to get out of the slough of despond; they wanted jobs, and if they couldn't get them they at least wanted to dramatize their plight and express their feelings.

But organized society has no way of meeting them but by using force. It killed four of them, wounded 15 or 20 more and threw 15 into jail.

By doing this what did it accomplish?

It made a lot of those 3000 permanently bitter. It gave the Communist organizers throughout the country a tremendous lot of new fuel for the sputtering fire that they are trying—with scant success, thus far—to start. It enormously emphasized the sad fact that organized society sometimes seems a lot readier to hit jobless men over the head than it is to keep them from going hungry.

A newspaper photographer who covered the procession from its start said:

"As the men formed they were a jolly lot, some laughing and joking as they marched to Dearborn."

Marchers who laugh and joke are not dangerous. When organized society does its best to make them stop laughing and joking it is acting with supreme foolishness.

## COMMERCIALISM AT ITS WORST—

If there exists, anywhere, any sort of booby prize for those who most callously disregard the privacy and the feelings of other people, it ought to go to those New Jerseyites who tried to make a little easy money by offering to fly sightseers over the Lindbergh estate near Hopewell, N. J., for \$2.50 apiece.

Not in a long time has unintelligent commercialism offered the nation quite so ugly a spectacle.

Duplicates of this prize, by the way, ought to be struck off for all the people who accepted the proposition and spent \$2.50 for the privilege of being carried over the estate. Those people, beyond doubt, would have been happier if they could actually have been escorted into the Lindbergh home, so that they could have poked their grubby fingers at Colonel and Mrs. Lindbergh at close range. As it was, they had to be content with a distant view; but it may comfort them to know that they have earned the contempt of decent folk.

Death has claimed a number of distinguished Americans within the last year. Among them must certainly be reckoned the late John Philip Sousa.

Sousa, most assuredly, will never be ranked among the great musicians. He would not have ranked himself there. But it is probable that his name will be remembered for a long, long time—as long, very likely, as men still go to war, or have armies, or hold any kind of parades in which quick-step marching tunes are essential.

# The dime-a-dance girl

BY JOAN CLAYTON

**BEGIN HERE TODAY**  
Beautiful ELLEN ROSSITER, employed at Barclay's Department store, works nights as a dance hall hostess. She lives with her mother, MOLLY ROSSITER, her elder sister, MYRA, and her brother, MIKE.

STEVEN BARCLAY, 37 and owner of Barclay's, is in love with Ellen. Twice she refuses to marry him. Ellen loves LARRY HARROWGATE, an artist. Newspapers announce Larry's engagement to ELIZABETH BOWES, a debutante. For a long time Ellen hopes that Larry returns her love but when Elizabeth returns from Europe he sends a note telling Ellen he cannot see her for some time.

Heart-broken, Ellen tries to forget. Gradually she comes to think less of Larry and more of Steven Barclay. Then her brother is dangerously injured in a traffic accident. Barclay provides money for the boy's care. One evening he tells Ellen he has sent for DR. STENGEL, Viennese physician, to perform an operation on Mike's leg.

Ellen tells Barclay she wants to marry him.

**NOW GO ON WITH THE STORY**  
CHAPTER XXVIII  
STEVEN felt back a step in surprise. "Do you mean this? Are you serious?"

Ellen's eyes answered him. She paused to brush back from her forehead a lock of curling hair. "I would be safe if I married you," she went on. "I would have peace. Just now I very much want peace and safety."

"I've never heard that marriage was particularly safe," he told her. Ellen pondered. "But I—" she had begun when he interrupted.

"Ellen, my dear, I'm afraid you have conceived some mad idea of marrying me to show your gratitude. I can't let you do that."

"It's not that at all," Ellen put in, her cheeks flushing.

"But you don't love me."

"I don't know what love means," she said wearily, not denying his statement. "I know that I think you are the kindest man in the world. I know that I trust and admire you. Isn't that enough?"

"At your age I'm inclined to think not."

"Help me, help me, Steven!" the girl whispered.

"So there is—was—someone else?"

He was watching and saw the gallant smile that did not reach her eyes. She did not answer the question but put another instead.

"Would you marry me, Steven, knowing that I once thought I loved someone else very much even though I knew that love wouldn't work out, could never work out?"

He laughed mirthlessly. "I'm afraid I would. I'd think, you see, that I loved you so much that in time you would come to love me, too."

Still he made no move toward

her. There was no exultation in his face. He only stood looking down on her.

"I don't understand," she began ruefully. "Just the other day—"

He turned to walk the scant length of the kitchen, past the piled up sink with its unwashed dishes, past the stove and porcelain table to stare through the open window into the hot night. Wheeling suddenly he came back to her and forced himself to say the words so hard to speak.

"Just the other day you did not feel under obligations to me. Now I'm afraid you do."

"There's no use pretending I'm not grateful to you," Ellen admitted. "No use pretending I wouldn't like to do everything I can to make you as happy as you've made me. But that isn't a fault, is it?"

THE light from the single unshaded bulb aureoled her tawny hair and gilded her bare arms, revealed by the thin blue frock. She stood there so fresh and confident, so young and desirable, that Barclay felt his resolution weaken.

"But how about—how about the other man?" he asked, clearing his throat.

"I hope you'll understand, Steven, when I tell you that he brought me nothing but misery and grief and heartache. I thought I'd go mad with restlessness and pain when I knew him. It was that kind of love, Steven. The love it's best to forget."

She paused, then added, "But that's all done now. I can even say I'm glad it's done."

Ellen believed the words as she spoke them. Steven believed her because he wanted to but there was no real confidence in his heart.

As Ellen raised her fresh young lips to his first kiss she determined that he should be happy. It was not the ecstatic kiss she had dreamed of but she felt at peace. She thought it was peace that she wanted.

Hand in hand like children they went into the living room to announce their engagement.

Myra and Bert were pleased, not surprised. Myra kissed them both in a quaint and dignified way. Bert shyly shook hands with the handsome, graying man who was to be his brother-in-law. Afterwards they washed the dishes, all of them, and were very gay. Myra and Bert joked and teased until Ellen blushed as brightly as Steven. But she did not mind the teasing.

Then the girls put on hats to go to the hospital. Alone together for a moment, Myra gave Ellen an ecstatic hug and whispered the wish that she would always be

happy.

The four of them went down the stairs. Mrs. Barclay was at her usual post and waved a greeting. On sudden impulse Ellen stopped to announce the news and to introduce Steven as her fiancé. She knew from Steven's boyish laugh that he was pleased.

"When's it to be?" demanded Mrs. Barclay.

Ellen hesitated. There had been no talk of dates.

"Probably not for some time," Steven answered for her. "I'm compelled to sail for Europe Saturday and the wedding will take place after my return."

Mrs. Barclay's smiling, significant eyes followed them until they were lost to sight by the stairway turn. Myra and Bert were already outside. It was as they were going down the last flight of stairs that Ellen spoke.

"Would you like to make it sooner, Steven?" she asked. "Soon enough so that if Mike's well enough I can go to Europe with you?"

"Ellen!"

HE caught her in his arms so roughly that for a moment she was frightened. His hoarse, low voice was murmuring in her ear. So she did love him! She did want to make it soon! Something in Ellen's heart turned over with shame and dismay. She understood all at once, as she trembled in his arms, that the reason she had wanted to make it soon was to protect herself from another meeting with Larry Harrowgate.

Her heart contracted with reluctance and an odd pain. Steven should never guess why she wanted her promise to be irrevocable. She stroked his hair back from his forehead and assured him that she did love him. There are all kinds of love in this world, Ellen thought. Steven should never suspect that she had given away for good and all the kind of love he wanted. So little did the young and virginal Ellen know of the human heart.

They walked out to the car. "There's just one thing I want to ask of you," Steven said to Ellen, when he had brought the two girls back from the hospital. They were standing at the curb outside the house. Ellen raised startled eyes.

"It's only that you quit that dancing job at once," he went on. "Can you telephone them tonight?"

Ellen smiled at his eagerness but found it comforting and sweet.

"I'll call them tonight," she promised.

Ellen linked arms with her sister and entered the house, conscious that Steven's eyes were following, conscious too that heads were popping out of apartments all over the neighborhood. Every one seemed to know that something unusual was happening at the Rossiters.

"Wasn't mother pleased!" Myra observed as they climbed the stairs.

"And didn't Steven blush when she kissed him! I don't believe I've seen mother so excited for years."

"I know," Ellen agreed absently. "What are you thinking about, honey?"

Ellen roused herself. "Oh, nothing."

They reached the apartment.

"What'd you think of Dr. Stengel?" Myra asked, flinging herself to a chair and yawning hugely.

"He's all right, I guess."

"You are thinking of something," Myra said accusingly. "I can see it in your eyes."

"You can see too many things that aren't there," Ellen told her uncomfortably. She moved about the room, emptying ash trays and putting things to rights for the night.

"Isn't it great to have every thing so easy for a change?" Myra said dreamily. "Did I tell you Steven spoke to me again about Bert and said he was going to arrange immediately for Bert to get that job at the store—in the book department? You know how Bert loves books!"

ELLEN was aroused from her reverie. Her enthusiasm was spontaneous and real. "I can't tell you how glad I am," she said. "That will just suit Bert. All he's needed has been a break."

"A break was what we all needed," Myra assented. "This makes all the difference in the world to Bert and me. With this new job there's no reason for us to wait any longer. Bert is jumping out of his skin with joy."

"Oh, Myra, I am glad."

"Stop fussing with the house and let's go to bed and talk," Myra said. "Let's let everything go and get up early in the morning." On sudden thought Myra asked, "But are you going to the store at all in the morning?"

Ellen laughed. "I should say I'm not," she said. "You know Steven. He'd throw six fits. One of the first things he said was that I was through with work for good and all."

"Imagine!" breathed Myra. "No more rushing off in the morning and coming home worn to a frazzle. Heavens, you're lucky!"

"I am lucky," Ellen agreed soberly.

A little later she telephoned to Salomon to say she was giving up her job at Dreamland. He was so regretful Ellen was touched.

"If you ever want the job back it's yours," he declared. "What am I to do with the money I owe you? There's about \$10 waiting for you."

"Credit it to Tony," Ellen responded. "And tell her goodbye for me."

As she returned to the apartment she did not try to analyze the sensation which swept over her with the realization that she would go no more to Dreamland. Nevertheless the sensation persisted and lingered on in her troubled dreams.

Carrying to the White House an appeal for her son's freedom, Mrs. Mary Mooney, 84-year-old mother of the long-imprisoned labor leader, is shown above as she left the Executive Mansion. Though she failed to see President Hoover, she gave her appeal to Theodore Joslin, a secretary.

## BRAINERD 25 YEARS AGO

March 17, 1907

Fat McKeon went to Big Falls to-day on business.

Mrs. H. F. Wilson returned today from a visit to her parents at St. Cloud.

A. T. Larson returned today from a business trip to Pine River.

Mrs. Tom Loftus and little son came up from Staples yesterday to attend the St. Patrick's entertainment and returned home today. Miss Mamie Reilly accompanied her to Staples on her return to visit there a few days.

The U. O. 2. B. in its club will meet with Miss Emily Quinn tonight at 7.30 o'clock.

"Yonson" being distinctively a comedy, Kennedy and Willard the managers decided it was perfectly permissible and in good taste to insert specialties in the piece, incidental to the story. Thus in the action of this rattling comedy of life in Minnesota's lumber camps will be seen several extra features including choice ballads by Mr. Thompson, selections from a varied repertoire by the Lumbermen's Quartette, and a specialty by Miss Lois Arnold.

A St. Patrick's Day entertainment will be given by the congregation of the St. Francis Catholic church Monday night.

## Thoughts for Lent

"A New Commandment"

(Read John 13:31-35.)

All but This "new commandment" is for those who have reached the summit, have learned to love their enemies, and have crossed "the great divide." It is the new rule of life which can be followed only by those from whom every vestige of hatred has been eradicated. It is the "magna carta" of the new humanity: "the law of life." We come to it by stages of spiritual progression. Thus, in our fellowship of prayer, we have journeyed together along the pathway of Christian discipleship. Are we ready to accept the "new commandment?" Is Love now, in sincere actuality "the law of life" for us? If so, we need never fear hereafter lest the Radiance depart. Henceforward we ourselves are Radiant, with the Radiance which is of God. Christ in us is the Love of glory.

Prayer: We pray, O Christ, that Thy Love which is in our hearts may be shed abroad from our hearts into the lives of men, near and far. If it be Thy will that we may serve as beacons of a better day, help us to radiate Thy Light so clearly that men may glorify Thee and learn to trust the power of Love in all the affairs of their lives: to the end that strife and bitterness may disappear from the earth, and that Thy Spirit may prevail. Amen.

## MANY ENTER BUSINESS

Washington—Although 1933 was not a good year for entering business, some 200 manufacturers braved business conditions to enter aviation, the trade directory of the U. S. department of commerce shows. The total number of aeronautical manufacturing concerns is now 2818. Manufacturers of planes now number 240, as compared with 117 the last time the directory was issued.

## COST OF LIGHTING

Washington—Lighting a modern airport with flood, beacon and marker lights is a costly proposition, the U. S. department of commerce reports. In averaging this cost from airports all over the country, the department has found it to be from \$12,000 to \$25,000. This cost, however, it is pointed out, is more than made up when the value to planes flying at night is considered.

## FOR THE ARMY

Washington—F. Trubee Davison, assistant secretary of war, has approved two contracts for new aircraft engines and spare parts for the army air corps. The contracts will involve the expenditures of more than \$1,400,400, and will call for the purchase of 190 engines from two companies. They will be installed in service, test and training planes.

## SUITABLE FOR EASTER!

Spring's Suits Have Chic Up Their Sleeves

Suits get the predominating vote for Easter parade wear this year. It is a year when you can suit your type perfectly and step out in all the chic in the world.

If you have a lovely figure, you will be interested in a Schiaparelli model (left) of a soft dressmaker suit that fits with no marked beltline but the built-up skirt and molded jacket do full justice to your grace. This one is a French blue ribbed wool, with a flat collar that loops into a kerchief tie at low front and has a cape for wide-shoulders' sake edged luxuriously in French blue fox.

Should you prefer clean-cut shoulder lines, there is an uncollared suit of black soft ribbed wool (center) with one single cloth button holding the fort at left front. The three-quarters sleeves flare into handsome wide cuffs which carry tapered wide bands of platinum blonde fox. The belt ties, like a sash, right in front.

For the tailored maid, a jaunty little suit (right) sponsors a high waistline, double-breasted buttoned effect, and a black noire collar that has a roll and then sharp points. It is the new rich beige shade and with beige gloves and stockings and black hat, purse and shoes, you can hold your head high at the front of the Easter parade.

## 6,260 ACRES IN STATE RETURNED TO COUNTY TAX LISTS

Sales records of the state Rural Credit Bureau today revealed 6,260 acres, spread over 54 former state-owned farms in various parts of the state, have been returned to county tax lists in the last six months through approved sales to well-equipped farmers from Minnesota, as well as nearby states. Of these, 13 farms, representing 1,332 acres, have been sold in the last 60 days. A dozen other deals have been made and are awaiting approval.

In the six-months period, the value of the land sold was \$259,360, of which \$59,000 represented sales the last two months. Records as of March 1 reveal the state now owns 2257 farms, as compared with 2240 February 1, with an increase to 3,000 forecast by January 1, 1933.

With reappraisals now complete, the state has its new farm selling program in full operation, members of the board striving to place as many state-owned farms as possible back on county tax rolls in 1932, thus relieving taxation on other land owners. A steadily increasing demand for state farms from purchasers, both in and out of the state, indicates a healthy return to the farm movement, Thomas P. Frankson, secretary of the board, said.

"Under present conditions, the state is in a position to sell farms for less than it cost the pioneers who settled Minnesota in the early days, without the hardships and inconveniences they were forced to suffer. We can sell a well-improved farm, ranging in size from 40 to 320 acres, for what it would cost to duplicate the improvement. The state sells its farms on terms so reasonable they are within the reach of all. A down payment of 10 per cent. will permit occupation of any of these farms and the balance may be paid in 35 and 1/2 years at 5 1/4 per cent. interest.

This does not mean the state is dumping its lands at all, or that we are giving these farms away. It merely means we are in a position to furnish the prospective home seeker with a farm at fair present market values and bring the farm back on the tax rolls, where it belongs.

"We know the farmers of Minnesota are intensely interested in the Frazier bill, now pending in congress, which, if made into law, would enable farmers to refinance their present mortgage indebtedness at a very low rate of interest. Farmers do not want refinancing at high interest. They must have interest low enough so they can pay and this bill provides just this. The bill provides for the amortization type of mortgage now being used by the Minnesota Rural Credit Bureau and would enable the farmer to pay off his indebtedness in 47 years by paying one and a half per cent interest and one and a half per cent on the principal each year.

# The Story of Baby Lindbergh

Charles Augustus Lindbergh, Jr.  
... in a rare photo taken of him  
at the age of one month.

New York, March 5.—This is a word picture of the Lindbergh baby, and a story through which it is possible for the first time to tell something of the home life of the child with his illustrious father and mother.

Little Charles Augustus is a healthy, normal child. Round, fat and merry, the child had lovely golden curls until last summer, when the curls were cut. He has dark violet eyes like his mother's. About the mouth he resembles his father.

For a baby of 20 months he shows great self-reliance. Even at this early date he shows evidences in his play of the extremely methodical ways of his father. Play-time being over, he carefully puts away his toys himself. And his nurse and the family have been impressed by the way in which he can fit bigger toys together.

Charles, Jr., has no fear of animals. He became especially fond of playing with Skeet, Mrs. Lindbergh's black Scottie. The child's affection for the bounding puppy is thoroughly reciprocated.

Until late this winter the baby remained at Englewood at the home of his grandmother, Mrs. Dwight Morrow, with his nursemaid. Because young Charles had no playmates here, he attended Elizabeth Morrow's day nursery in Englewood, being driven there daily by car.

Charles, Jr., never before had been taken to the new house on the big estate except for week end visits. The kidnaping tragedy occurred during the family's first extended stay in the country.

## Shunned Publicity

Various Lindbergh baby rumors have been circulated and the family knew about them. They refused, however, to take any steps to stop such gossiping. It was proposed to Colonel Lindbergh that he have a movie made of the baby. He refused. Lindbergh also declined to issue any pictures of the baby beyond those taken within a few weeks after his birth. He said he hated his own baby pictures so much that he would not subject his own child to the same embarrassment.

Lindbergh and Mrs. Lindbergh stood firmly together on the ground that since the baby was theirs, they had the right to enjoy him privately, and were adamant in their refusal of the importuning of newspapers and magazines for stories or pictures of the child.

Lindbergh declared in private conversations that he wanted Charles, Jr., to grow up a perfectly normal boy. He said he did not feel this was possible if he had a constant spotlight of publicity turned upon him, even as a baby.

The famous parents seemed to be highly successful in starting him out to be a healthy, happy boy. The baby is said never to have been ill a single day in his life, and here is the daily diet to which the lusty youngster had graduated:

- 1 quart of milk
- 3 tablespoons cooked cereal
- 2 tablespoons cooked vegetables
- 1 egg yolk
- 1 baked potato

## 14 drops viosterol

When Charles, Jr., awakened in the morning, he was given one-half cup of orange juice. And as soon as he stirred from his afternoon nap he was served a half cup of prune juice.

## Household Not Elaborate

The servants of the Lindbergh household at Hopewell, in addition to the child's two nurses, are an English butler and his wife. The latter

couple applied to the Lindberghs for employment at the time they rented the Hopewell place, before building the present house.

Colonel Lindbergh asked the applicant butler why he came to him, when with such excellent references from England, and apparently such first rate experience, he and his wife might get a swank job on Long Island. The man replied that he and his wife were not "smart" enough for the Long Island crowd. To which Lindbergh answered that if they weren't stylish enough for the Long Islanders, they were probably just the couple he was looking for.

They were employed, and between them do all the work about the Hopewell household.

## Holds it Legal to Deposit Collateral with Finance Unit

St. Paul, Minn., March 14.—(UP)—Attorney General Henry N. Benson today ruled that it was legal for Minnesota banks to deposit their collateral with the reconstruction finance corporation to obtain loans.

A 1927 state law provides that no bank or trust company shall pledge its assets, except to the state or to obtain public deposits or to obtain money borrowed in good faith from another bank or trust company.

Benson's opinion was sent to state banking commission J. N. Peyton, and ruled that the finance corporation is really doing a banking business.

# Beware of a fat that smokes easily

Protect your digestion with Crisco—the fat that deep fries without smoking

Do you follow the old rule—"When a fat smokes it's ready to fry in"? Don't! Remember that a smoking fat is burning. And a burnt fat is decomposed fat—indigestible.

Protect your digestion by frying with a fat that does not smoke at correct deep-frying heat. Crisco does not smoke if you follow the bread-cube test (see Hawaiian Fritter Recipe).

Crisco-fried foods are easy to digest. Why? Because Crisco itself is digestible. It is not just a "compound." It is a pure, wholesome fat, made by Crisco's own secret process to keep sweet, fresh and digestible!

Serve Hawaiian Fritters tonight. Your husband will love their fruitiness. And if his digestion tends to be touchy, he'll thank you for frying them in digestible Crisco!

These fritters taste great. But will they agree with me?

Don't you worry! I fried them in Crisco, the digestible cooking fat.

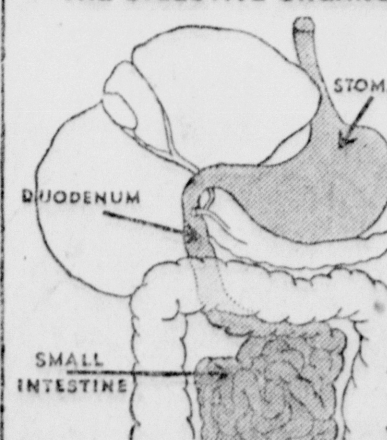

## HAWAIIAN FRITTERS

1 cup flour  
1/2 teaspoon baking powder  
1/2 teaspoon salt  
1/2 cup pineapple juice  
1 cup bananas, cut in small cubes

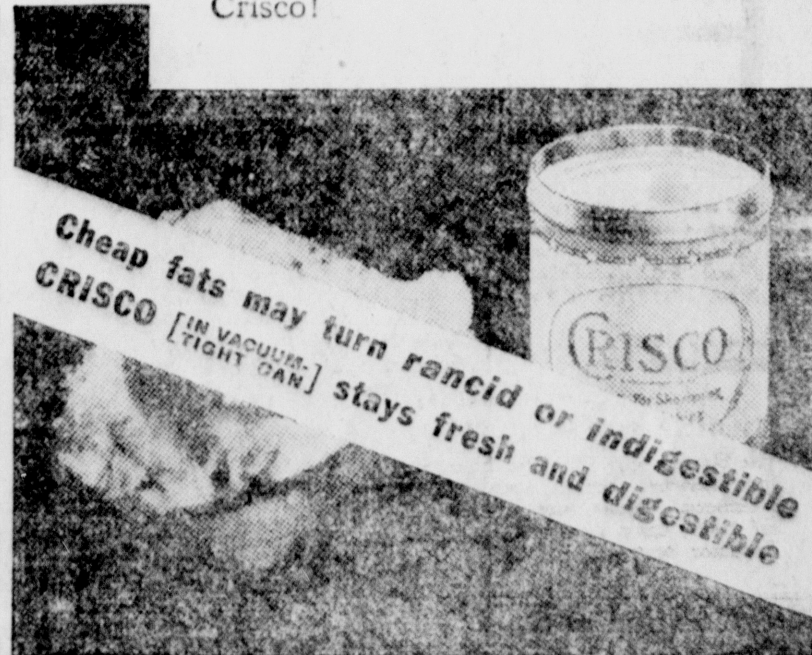

1/2 cup crushed pineapple  
1 tablespoon lemon juice  
1 egg (beaten)  
2 teaspoons melted Crisco  
CRISCO for frying

Mix and sift dry ingredients; add pineapple juice, lemon juice, beaten egg and Crisco. Mix well, then stir in bananas and pineapple. Remember that tallowy fats that smoke at correct frying heat make foods hard to digest. Fry in Crisco, the wholesome fat that makes food digest easily. Drop by tablespoons in deep hot Crisco (360° to 375° F.) at a heat that browns inch cube of bread in 60 seconds. Crisco won't smoke at this proper frying heat. Fry about 3 minutes and drain on unglazed paper. Dust with powdered sugar and serve as a dessert—or serve plain with meat. Simply strain the Crisco to free it of particles that might char. Then it can be used for frying again and again, as Crisco never carries the odor or taste of one fried food to another.

## THE DIGESTIVE ORGANS

At these 3 danger points, ordinary fats may cause digestive troubles. Crisco digests easily.

In the cooking school conducted recently under the auspices of The Daily Dispatch, Mrs. Frances Northcross used and recommended Crisco, the modern shortening that digests easily

## IMPROVEMENTS CUT ROAD UPKEEP COST

Paved trunk highways, carrying the heaviest traffic, require the smallest maintenance expenditure, according to figures given out by C. M. Babcock, commissioner of highways. Maintenance of the slab in 1931 averaged \$97.61 per mile. This included crack filling, lifting sags with a "mud jack," and replacing broken spots in the older pavements. Adding shoulder repair, snow removal, mowing, repair of ditches and culverts, signs and miscellaneous, the total expense averaged \$249.36 per mile. The paved routes carried an average of 2,309 vehicles per day.

Gravel roads, with less than one-third as much traffic, cost more to maintain. The average cost of maintaining 2,948 miles of untreated gravel road was \$339 per mile, all items except regreaveling. The maintenance division regreaveled 1,601 miles at an average cost of \$256 per mile.

The more heavily traveled gravel roads were bituminous treated. The average cost per mile of 1,589 miles of new treatment or retreatment was \$1,069. There were 291 miles of bituminous gravel on which retreatment was not required. These showed an average expense of \$176 per mile for maintenance of the roadway, and a total of \$280.60 per mile with snow removal, roadside maintenance and all other items.

Total maintenance expenditures were larger in 1931 than in 1930. Unusual conditions due to the drought necessitated intensive maintenance work on many routes, and extensive construction made it necessary to maintain 802 miles of detours. These two factors were responsible for an increase from \$2,311,492 in 1930 to \$2,340,262 in 1931, in so-called routine maintenance, or work done by section crews.

Snow removal decreased from \$371,181 in 1930 to \$139,376 in 1931. Regreaveling, bituminous retreatments, dust layers, bridge repairs, workmen's compensation, signs and markers and traffic patrol brought the maintenance expenditures to \$3,712,305 in 1931, compared to \$3,654,065 in 1930. The maintenance division also spent \$761,766 for betterments in 1931, compared to \$510,324 in 1930. About two-thirds of the expenditures for "betterments" was for new bituminous treatments.

"We have undertaken an extensive program of bituminous treatment of gravel roads which for medium heavy traffic will give better service than untreated gravel," Mr. Babcock said. "In the long run this will be cheaper than maintaining gravel, but at the start it will be more costly. This, together with the many detours and the drought, was responsible for the increase in maintenance expenditures."
